4. Objectives

OMEX Mfg ULC does not intend to reduce the use of chromium and its compounds since it is a component of the metals used as per customer quality standard requirements.

5. Progress in Implementing Plan

This section does not apply since no feasible reduction options are available for implementation at this time.

For information on on-site releases from the facility, as well as disposal and off-site recycling information please refer to National Pollutant Release Inventory's website: <http://www.ec.gc.ca/inrp-npri/>.

6. Highest Ranking Certification

The original copy of the signed certification of the annual report is kept on file at the facility.

Annual Report Certification Statement

As of 17/05/2018, I, Richard Slawek, certify that I have read the reports on the toxic substance reduction plans for the toxic substances referred to below and am familiar with their contents, and to my knowledge the information contained in the reports is factually accurate and the reports comply with the Toxics Reduction Act, 2009 and Ontario Regulation 455/09 (General) made under that Act.
